NFPA Numeric Sizing / HAND MEASURING

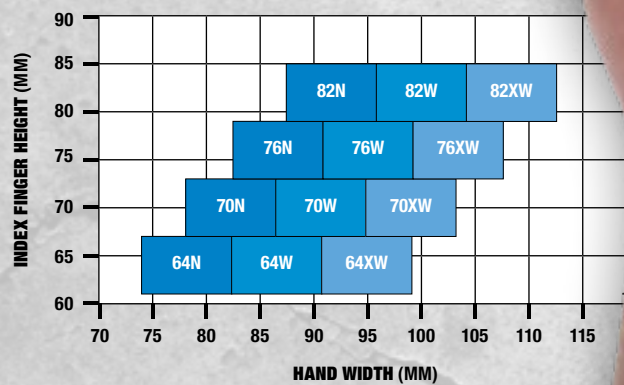

Fire gloves have traditionally been labeled using alpha sizing (i.e., small, medium, large). However, the NFPA 1971, 2018 Edition standard has now been replaced by the Military Sizing System, which consists of numerical sizing along with a normal or wide designation. Various sizes are available, including **64N, 70N, 76N, 76W, 82N** and **82W**. LION gloves are dual-label with alpha sizes as well as numeric sizes.

3-STEP GLOVE SIZING:

1. Measure your hand width in millimeters. This measurement will determine whether your palm is classified as normal (N) or wide (W).
2. Measure your index finger in millimeters. This length will be your size number.
3. Find your glove size on this chart based on your hand and finger measurements on chart.

PRIMUS® / FIREFIGHTING

LION PRIMUS is a tough, reliable leather structural fire glove with superior heat resistance as well as maximum cut and abrasion protection. The PRIMUS glove's dynamic 3-D design offers exceptional dexterity, grip and comfort, while cuff and lining enhancements make donning and doffing quick and easy.

FEATURES/BENEFITS:

- State-of the art 3-D design provides maximum dexterity and comfort with fingertip control, flexibility and grip
- Durable combination Eversoft® cowhide split leather/top grain sheepskin leather outer shell
- Heat-resistant, flexible and durable leather outer shell provides protection against thermal assaults, cuts and sharp objects
- Added Lite-N-Dri™ and innovative knuckle pad on the back of the hand increases thermal and impact protection in high-heat and high-abrasion areas
- GORE® CROSSTECH® with film technology insert and Kovenex® lining offer lightweight, flexible, and comfortable liquid and thermal protection
- Sewn-in liner stays easy to don and doff, and won't pull out while doffing – even when wet
- Barcode tag labels for data tracking and asset management
- Color: Black/Gray
- Sizes: XXS - 4XL (Cadet: S - XXL)
- Model Numbers: LPG955=10
LPG955C=10 (Cadet)

Commander ACE™ / FIREFIGHTING

When it comes to firefighting, have an ACE up your sleeve! LION Commander ACE structural fire gloves feature premium split leather, enhanced Gunn cut design, plus Advanced Cuff Engagement (A.C.E.) that make it easier for the gloves to interface with turnout coat sleeves.

Commander ACE covers the back of hand with additional Lite-N-Dri thermal protection in a unique knuckle panel that allows for more stretch.

FEATURES/BENEFITS:

- Enhanced gunn cut pattern with three-piece back-of-the hand design for optimal stretch and grip
- Eversoft® water-repellent, thermal cowhide split leather outer shell
- Lite-N-Dri™ cushioning in the back of the hand for added knuckle protection
- KOVENEX® thermal fabric delivers excellent heat protection flame, cut and tear-resistance
- Leather gauntlet
- Gore® CROSSTECH® Insert with Film Technology for lightweight, breathable, liquid penetration protection
- Barcode tag labels for data tracking and asset management
- Color: Black
- Sizes: XXS - 4XL (Cadet: S - XXL)
- Model Numbers:

LIGHT DUTY GLOVES

MEDIC GLOVES

MechFlex™ XTreme™ / EXTRICATION

LION MechFlex XT extrication gloves are designed using extensive glove manufacturing experience. The result is a high-performance, breathable, washable and durable line of gloves. Abrasion-resistant materials have been strategically placed to maximize hand protection, and supply superior grip and dexterity. Quality craftsmanship and ergonomic design provide unprecedented comfort during extended wear. This also results in superior protection and dexterity for extreme conditions including motor vehicle accident (MVA) and tactical rescues.

FEATURES/BENEFITS:

- Tough, 100% nylon outer shell
- Spandex padding on back for abrasion, cut and tear resistance
- Padded knuckles with stretch for extra impact protection from jagged metal and broken glass

- Heavy-duty, black synthetic leather palm and side-walls
- Armortex®/Kevlar®-reinforced palm and finger patches for outstanding dexterity and puncture resistance
- Hi-Viz reflective material on back of glove for increased visibility in night time extrications
- Slip-on debris-control elastic cuff for easy donning easy and to keep gloves free of wreckage fragments and rubble
- Color: Black (with Lime-Yellow Hi-Viz and Gray/Silver reflective accents)
- Sizes: XS - XXL
- Model Number: LPGMXXT

Cold Weather / LOW TEMPERATURE WORK

LION Cold Weather work gloves provide reliable hand protection, water-resistance and warmth while performing non-fire operations (i.e., rescue, extrication, scene clean-up, station duties, etc.) in cold temperatures.

These durable, high-visibility gloves feature waterproof Rhino-Tex™ synthetic leather palms and Heatrac® microfiber thermal liners that keep warmth in and water out.

FEATURES/BENEFITS:

- Reliable hand protection that provides water resistance and warmth while working in cold temperatures
- Hi-Viz and reflective accents on back-of-hand for optimal visibility
- Waterproof Rhino-Tex™ synthetic leather palms

- Heatrac® microfiber thermal liners that keep warmth in and water out
- Padded patches on the fingertips enable maximum grip and extended wear
- Gauntlet-style wrists with take-up straps
- Added cuff toggle closures allow for easy donning and doffing and keep the gloves free of moisture, cold air and debris
- Color: Black (with Lime-Yellow Hi-Viz and Gray reflective accents)
- Sizes: XS - XXL
- Model Number: LPGMX90
