MagneTite™

MAGNETIC GEAR CLOSURES

Less Wear and Tear on Your Gear. Easier, Faster Gear Donning.

Replacing hook and loop turnout closures with LION's innovative MagneTite* magnetic closures extends the durability of your gear, greatly reducing the need for repairs. They also safely secure your gear in just two quick steps.

* PATENT PENDING

Features/Benefits:

- Designed for optimal strength closure and shunted in the opposite direction to avoid fireground debris
- Multiple layers protect magnetic elements from heat, so they hold tight fire after fire, wash after wash
- Pick this option a la carte on select gear stormflaps, collars, pockets and flies or place them in ALL of these locations for the optimal MagneTite experience
- Available with thermoplastic zipper closure only
