ENGAGEMENT IN THE INDUSTRY AND UPCOMING EVENTS

WORLD VIEW: BOMBERO BASH

September 5, 2024
Santiago, Chile

LION hosted its inaugural Bombero Bash: Ritmo y Rescate in Santiago, Chile! With over 150 firefighter attendees from across Latin America, the event was a massive success. From exciting giveaways and door prizes to hands-on experiences with LION products, our guests had the opportunity to explore the innovation and quality that define our brand. Together, we celebrated the hard work and dedication of firefighters and first responders across the region.

NFFF 9/11 MEMORIAL STAIR CLIMB

The **NFFF 9/11 Memorial Stair Climb** is a way to honor and remember the FDNY firefighters who selflessly gave their lives so that others might live on September 11, 2001. Each participant pays tribute to an FDNY firefighter by climbing the equivalent of the 110 stories of the World Trade Center.

Your individual tribute not only remembers the sacrifice of an FDNY brother, but symbolically completes their heroic journey to save others. Through firefighter and community participation, we can ensure that each of the 343 firefighters is honored and that the world knows we will never forget.

The Stair Climb funds the programs provided by the NFFF to support the families of your local fallen firefighters and the FDNY Counseling Services Unit.

As new textile and material technologies become available to manufacturers of structural firefighting gear, LION strives to remain at the cutting edge of bringing the newest innovations to the market.

We'd like to provide an update on some important facts regarding the array of materials we use in our turnout gear, specifically concerning PFAS (Per- and polyfluoroalkyl substances), which has been an ongoing topic of interest, as well as point out areas of consideration for fire departments considering evaluating these new technologies and materials for their firefighters.

We encourage interested fire departments to wear-test all new products before purchase to evaluate breathability, durability, and other performance criteria required by each department's risk assessment.
